SOME OF MY WORK

Skinalyzer - AI Skin Analysis Mobile App
REACT NATIVE | PYTHON | FASTAPI | TENSORFLOW | OPENCV | GEMINI API
Built a computer-vision pipeline for face preprocessing and dedicated skin-condition models, then delivered structured reports, analysis history, and budget-aware skincare recommendations.

AI Product Recommendation System
REACT | SPRING BOOT | PYTHON | FASTAPI | POSTGRESQL | SCIKIT-LEARN
Connected a secure commerce API and React storefront to a hybrid recommendation service combining content similarity, collaborative signals, popularity, and recent user behavior.

Meikhtila City Guide
REACT | SPRING BOOT | MYSQL | LEAFLET | REST API
Created a role-aware discovery platform with categorized destinations, interactive maps, directions, reviews, user profiles, image management, and administrative content workflows.

FoodChoice - Personalized Recipe Platform
REACT | SPRING BOOT | JAVA | MYSQL | JWT
Built secure recipe discovery, profile, saved collection, user-created recipe, rating, review, search, and recommendation-focused workflows.

Smart Campus Management System
JAVA EE | JSP | SERVLETS | JDBC | MYSQL | BOOTSTRAP
Developed connected academic record modules and conflict-aware timetable scheduling with authenticated administration and draft-to-published workflows.
